TECHNICAL SKILLS

JavaScript, MERN Stack, React.js, Next.js, Node.js, Express.js, MongoDB, LangChain, HTML5, CSS, TypeScript, Bootstrap, TailwindCSS, Three.js, Framer Motion, Git & GitHub, AWS, Central OS, Linux OS Ubuntu, VScode.

EXPERIENCE

Frontend Developer | Online Savaari Jan 2024 – Present

 Developed and scaled a comprehensive travel-tech platform offering Flights, Hotels, Visa services, Travel Insurance, eSIM, Airport Lounge access, Holidays, and Activities. Built multiple end-to-end user journeys including search, comparison, booking, and payment flows while integrating 5+ airline APIs and other third-party services, supporting 1000+ daily searches across modules.

Frontend Developer (Part-time) | GroceryBays May 2023 – Dec 2023

 Worked on a grocery e-commerce platform focused on improving usability, performance, and discoverability. Led UI redesign efforts to enhance customer experience across product listing, search, and checkout flows, resulting in higher engagement and improved mobile performance.

Projects

➔ Caseopedia - Legal Case Management System

 Built a centralized, role-based legal management system with a modular frontend and scalable backend. Implemented secure authentication for lawyers, organizations, and clients, structured case and document workflows, real-time case status updates, hearing reminders, and intuitive dashboards for workload and case tracking. Optimized UI performance to handle large case and document datasets smoothly.

➔ MediCheck - OCR-Based Prescription Management System

 Developed a secure, step-based user flow starting with authentication and pricing access control, followed by a dashboard-driven experience. Implemented an OCR-based prescription scanning system that extracts and structures key medical data from handwritten prescriptions. Designed a clean UI to review, edit, and store extracted prescription details, ensuring accuracy and long-term accessibility.

➔ Online Ticket Booking System

 Developed and scaled a comprehensive travel-tech platform offering Flights, Hotels, Visa services, Travel Insurance, eSIM, Airport Lounge access, Holidays, and Activities. Built multiple end-to-end user journeys including search, comparison, booking, and payment flows while integrating 5+ airline APIs and other third-party services, supporting 1000+ daily searches across modules..

Education

 **Computer Operator & Programming Assistant (COPA)**  2025 - Continue
Government Industrial Training Institute Sankrail

 **DIPLOMA - Computer Science and Technology**  2020 - 2022
Budge Budge Institute of Technology (WBSCTVESD) | CGPA: 7.5 / 1700

 **MERN Stack**  Feb 2024 – Jul 2024
Bengali Coding Academy

 **Next.js Projects**  Feb 2024 – Jul 2024
Get SDE Ready

 **React Development**  Dec 2022 – Mar 2023
Masai School

 **Web Development**  Feb 2022 – Sep 2022
Code with Random
